At the exhibition the great fault of most of the performers or at least about half of them, was, that they did not speak sufficiently loud. But this is a failing which does not belong to any of the Butterworths. There were several Original orations of great merit. to wit. one by each of the following persons. Paulina Butterworth Lucretia Butterworth, Ann Butterworth Mary Jane Tufts and Lucien Clark. I lent uncle H. T. Tufts for the Knowlton Estate $4.05 the balance of the sale note signed by him — tried to get him to sign a paper binding himself to furnish, if necessary, means to pay the Knowlton debts, as he had frequently promised to do — but to bind himself in writing he would not — O the eel!

R. Snell paid me for uncle Wm. $50 interest.

I presented, unsuccessfully, a new petition to the Trustees of the Township for the costs in "Supervisor vs. Fox." Brought down from Mainville 24 Regaliae, voted by Mainville Div. to Loveland Div. & Gov. & I took them to Loveland, where I let Gov. have 50c. to pay his fee for joining by card, & also lent the Division $50. at 8 per cent & took its obligation for same. Jack Hill for John McCann returned to me $1. advanced a week ago to pay his initiation fee.

6th — Tuesday — Gov. joined. I went on subpoena, to

Trial of O'Finity — Hired John Joseph — Ruth sick

Esq. Adams' in Milford to Testify against Wm. O. Finity, who was there bound over to court to answer the charge of selling liquor to John Martin a drunkard. 1858 April } Son Charles born — Difficult parturition

9th - Friday. Geo. worked in the clearing all day - I ride now. After noon I went to Blainville and brought Martha home with me, then went for Sally Girton, whom I finally found at J. M. Dyer's - and got her to come to assist at taking care of Rachel who began this morning to have symptoms of labor. I also answered the letter of C. E. Vist, giving what information I could as to the matter enquired about. Rev. T. E. Witham came down in the eve. to assist at the care of Rachel.

10th - Saturday - Sent Geo. early, for aunt Nancy who came and staid all day and all night. Rachel suffered very much - the labor advancing very slowly, and at length the child's head, which presented, advanced as far as the bones of the pelvis and there stuck fast for 3 or 4 hours - Just before noon it was concluded to send for Dr. A. Semler and his instruments, & in case of his not being immediately found to have Dr. Cottle brought. The result was that they both came but did not arrive till after our son was born, - Charles

and mother having perceived that very little more force was necessary in order to bring the child forward, and therefore ventured upon the last experiment prior to instruments, to wit; the use of ergot, which had the desired effect and now the child and mother are both doing well.

Geo. mended up the fires in the clearing and sowed some oats, but having to go for Dr. Semler he did not get the latter harrowed. In the eve. Chas. & Martha went home in my buggy which Geo. brought home with him on his return from the Cir.

Ruthanna is still very poorly.

11th Sunday – Aunt Nancy went home in the morning. Bro. Charles came towards eve to see the sick – Ruth Anna being very sick, but Rachel doing very well, & the little boy also whom we call Charles. April 12 Brought home the log wagon from Aukes - Rolled logs

Cornelius for 2 years.

13th - Tuesday. Geo. worked in the clearing. Vena Girton came to see little Charles to day, & yesterday Rachel Martin did so the latter got some Lima beans for seed.

14th Rainey. Sent Geo. to Milt. & Marshel's after dinner to invite hands to help us roll our heaviest logs - Milton & his hand, & Wm. Girton came & we rolled during the afternoon.

Borrowed & collected money & paid Stricker & Cline

all night. I went up to Maineville in the eve, & got the news paper, saw B. Tufts about the Knowlton estate - got a bottle of Citric acid of Bro. Charles and a pound of Starch of Stevens & Hewitt.

16th - Friday - Went to Maineville, intending to proceed to Lebanon had I found E. L. Tufts, - but not doing so I borrowed of C. C. Witham $20, of C. Ford $26, and proceeding to R. Snell's I received of him for uncle Wm. $112.72 - Also borrowed of him $7.28. and having dined with him proceeded to Frederic Cline's and paid him the balance due from uncle Wm. - to wit $62.06 - Thence to John Stricker's and paid him in full $133.42 - The latter gave me a $20 bill, alleged to be counterfeit, which he says I gave him a year ago. I refused to take it & give good money for it, as his neglect to return it has made it impossible for me to put it back legally upon those it came from. I am however to see whether Constable Johnson & Wesley Corzatt will take it back, as it must have come from them. - (N.B. I only gave Cline $60 - forgot the 6 c. which I owe him yet, but my receipt is full)

Mistakes corrected. Drew $25. from Mainville Div. for L. Div.

17th – Saturday. Recalculated interest on the three notes Snell delivered me on the 17th of March – also on the notes of Cline & Stricker I laid off yesterday, and on the note due from Snell to Butterworth – and find that I had made mistakes as follows – – I made the amount of the $55. note, assigned by Snider to Snell $59.75
But now I make it correctly 65.72.5
I made the sum of the 3 Snider notes 291.30.7
But now I make them correctly 297.28.2
I made out that Snell should pay me 112.72
& that there remained on int. April 7. 1858 $1736.00
But now I make correctly that he should have paid $111.21
which would leave on int. April 7. 1858 $1710.00
By this account I must pay back to him $1.51
which I shall do, and have corrected the entries in my acct. books and on the notes aforesaid, according to this present reckoning. Lent Abner Howe my wagon. Geo. hauled the balance of the fence out of the oat field, except a few chunks. I worked in the clearing in the afternoon and in the eve went to Mainville and drew from the Treas. of Mainville Div. $25. for

Jane Foster & boy visited us. J. M. Dyer came in the morning and he & I settled – after which

28th — Leaving the boys to work in the clearing, to haul wood off it, and to plow, & sow oats, I went early to Loveland and took a passage on the cars to Blanchester, where I met David Linton & Judge Baldwin and the County Surveyor's deputy H. E. Moore, and we went to the West corner of Monroe's Original Survey where we found a marked White Oak (marked only on the South side)

1858 April 3 Notes as to lines & corners near Terry's Survey

a marked Hickory standing and a Hickory which had very recently been cut down and split into Rails which still lay at the stump, and on these rails we found original marks sixty-one years old. Running thence the line between the Surveys of Monroe and Harvey we found several sets of marks — one set about 25 years old. another about 53 and another sixty-one. We blocked a Hickory in Jonathan Baldwin's woods, just before we reached his cleared land in the Monroe survey North of Second Creek, and found the age of the marks thereon sixty-one years. And in Judge Baldwin's woods not far north of the M. & C. R. Road we blocked a red oak and found the marks on it sixty-one years old. When we reached the North corner of the Payton Survey in Monroe's line we found no timber standing but a marked Sugar tree which is now dead. Near, very near, it, was a White Oak stump. Between this Sugar tree and the Burr Oak claimed by Paulina as the West corner of Terry's Survey we also found

several sets of marks. In the woods a few rods South of the county Road we blocked a Hickory which has been dead a year or two and found the growth exterior to the marks thereon to number about sixty so that all hands admitted it to be an Original line tree. On reaching the Burr Oak we blocked it and found it hollow and decayed from the centre out as far as to where the marks were made but the growths after the marking seemed to count about Sixty. We then went to the White Oak claimed by Garrison as his corner in Peter Keenan's field and found the marks on it to be Sixty-one years old. A marked line proceeds from this White Oak towards the N. E. but we blocked two White Oaks and an ash in this line — the Oaks in the woods West, and the Ash in that north of Baylor Williams's residence, — and found their marks only forty years old. Having run the line from the Burr Oak to the South corner of Spotswood's Survey & night coming on we dispersed and Linton & I lodged at Brother John Gilton's.

1858 April 29th, Thursday. Further notes as to Clinton &c. Surveying.

Clinton & I remeasured the N. W. line of Terry's Survey to the Burr Oak & found its length 418 poles. Here we met our company again and run a line from the burr oak S. E. as far as Paulina's land extends. On this line we found no original marks - and after passing Paulinas West corner did not find any marks at all. Soon after leaving the Burr Oak we blocked a Hickory and found its marks 25 years old, and at P's West corner found the body of a small Elm which Garrison's had cut down last year - a very knotty elm & found thereon a mark covered with about 25 growths of wood. We then ran back from P's S. Corner, along the line claimed by Garrison which we found distinctly marked most of the way to the White Oak, but found no marks more than 40 years old. At this time Clinton proposed to make further examination for Original marks along the line approaching the Burr Oak from the Sugar tree at Payton's north corner, but Baldwin

1858 April } Paid Chainmen & Tavern Bill - Survey finished

Saved that trouble by admitting that there was no doubt but that was an Originally marked line. We then saw the line from the Burr Oak to Febeger's West original corner where we found only a Hickory marked as a corner tree:- and this line was found to be (as I was told by the Surveyor) 428 poles in length.

This finished our surveying, and I agreed with Lewis Garrison (who acted on behalf of the Defendant) that the chainmen should have $1. per day making $4. in all, and that we would each pay half of it, to be taxed in the bill of costs. Whereupon I paid $2 and he put money into Baldwin's hands to pay as much. I also paid Linton's tavern bill & my own (I having got dinner) at the Baldwin house = $1.75 I walked thence to Blanchester & got aboard the cars for Cleveland where I arrived in the eve and attended a meeting of the "League" and obtained an order on its Treasurer for $2.80 the costs which I paid at Milford on the 6th of this month. Fare on the cars to Blanchester & Back $1.
